

# Biomes and Ecosystems Notes

Name \_\_\_\_\_

Class \_\_\_\_\_

Biotic -

Examples of biotic things -

Abiotic -

Examples of abiotic things -

Ecosystem -

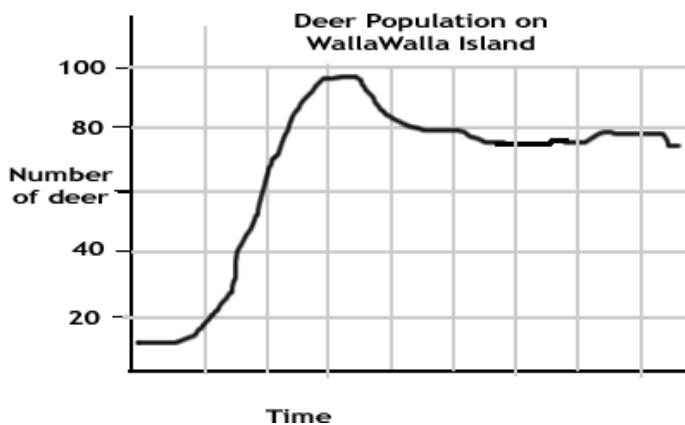

Biodiversity -

How does more biodiversity make an ecosystem stronger? -

Limiting factors -

Examples of some limiting factors -

Carrying capacity -

Once the carrying capacity is reached, the population levels out.

Biome -

Climate -

There are 9 major biomes

1. Tundra -

2. Taiga -

3. Temperate (Deciduous) Forest -

4. Desert -

5. Grasslands -

6. Tropical Rain Forest -

7. Marine -

8. Freshwater -

9. Brackish -

Ecological succession -

Primary succession -

Secondary succession -
